

Limited Budget

Flexible Payments

If you are working off a limited budget and you would like quality equipment with a flexible payment plan, we have the perfect solution for you.

Our [Outdoor Playsets](#) are great for centers that have limited budgets and need extra time to pay. Get special no-interest financing direct from the manufacturer.

Just follow these steps:

- Pick out the equipment
- Receive a shipping quote
- Pay either 1/2 or 1/3 down
- Receive your equipment
- Make monthly payments

NO CREDIT CHECK

NO INTEREST (for 3 or 6 months)

INSTALLATION AVAILABLE

Pay 1/3 down - 3 months of no-interest payments

Pay 1/2 down - 6 months of no-interest payments

These popular items offer a unique and affordable playground solution for preschools, elementary schools, daycare centers, churches, and parks. The best part is you get your equipment before you pay for it!

Included in the [Outdoor Playsets](#) is:

[Merry Go Cycle](#) - Most popular item

[Big Johnny](#) - Let them imagine

[Train Sets](#) - Crawl and Drive

[Spinning Tea Cup](#) - Fun, stable, and safe

[Spring Bouncer](#) - Cars, Jeeps, Hummers, Buses

[Hand Ring Climber](#) - Great climbers for all ages

Budget

**\$5,000
& less**

If your budget is \$5,000 or less, a traditional playground structure may not be in your best interest. Instead, spread your budget out and invest in several independent playground activities. Stand alone slides, spring riders, climbers, and merry go rounds are a few alternatives to typical structures.

Professional installation is available, but usually not recommended for purchases under \$5,000.

If you are starting your playground from scratch, don't forget about your safety surfacing. Wood playground mulch is not expensive, but it does add up fast. The smaller the area the less you will need. Try to pick out an area large enough for some expansion in the future.

Your children will enjoy anything you pick out for them. It is a matter of whether they will be actively entertained long enough. Decide what age groups you would like to accommodate. 0-2, 0-5, 2-5, 5-12, 2-12

Another advantage of choosing independent pieces of playground equipment is to keep shipping costs down. Several independent items can ship UPS ground rather than freight, which usually reduces costs.

If you are shopping for 2-5 year olds, recommended products will include: [Playground Structures](#), [Spring Riders](#), [Outdoor Playsets](#), [Early Childhood](#), and [Sandboxes & Sand Diggers](#).

If you are shopping for 5-12 year olds, recommended products will include: [Balance Beams & See Saws](#), [Funnel Ball & Tether Ball](#), [Merry Go Rounds](#), [Playground Slides](#), [Playground Climbers](#), and [Fitness Equipment](#).

Budget

**\$5,000-
\$10,000**

Determining your budget is the most critical step in the playground design process. We have designed and built \$1,000,000 playgrounds and \$1,000 playgrounds. The difference is obvious. Budgets do matter.

At the \$5,000-\$10,000 budget, many more opportunities open than exist at \$5,000 or less.

Even with a \$10,000 and less budget, it may be best to choose independent activities to get the most out of your money. We do offer very nice [Value Series \(3.5 inch post\)](#) structures at very affordable prices.

First look at your area and ask:

- What is the current safety surfacing?
- Do you need surfacing borders?
- What age group do you want to accommodate?
- How many children will play at a time?
- How much space do we have?
- Is there any site location flaws? (drainage)

A \$10,000 playground can be large or small, this depends on your current equipment and site readiness.

Self-installation is your biggest savings possible, second to shopping with us. If your organization is capable of gathering volunteers, you can save thousands of dollars in installation costs. The most difficult part of installing playground equipment: digging holes. A 4 foot deep hole is time consuming without proper equipment. View recent installations at our [playground installations](#).

For assistance in designing a playground to fit your budget and needs, [contact us](#) and a member of our design staff will be happy to assist you.

Budget

**\$10,000-
\$20,000**

We offer items for every budget and every need. Whether you are building an educational playground, handicap accessible, fitness, theme, outdoor, indoor, or any combination, we have the right products at the best prices.

A \$20,000 budget is above average in the market. This gives you the customer the option of having the playground professionally installed. We have a large selection of products that are exciting for children. Your investment must be spent wisely, that is why we offer products that are built to last and built to use.

Try planning your playground to accomplish a goal, whether it be to tire your children, educate, shelter, or a combination of the above. This will help your planning process begin.

Pure Fun: [Custom Modular Structures](#)

Education: [Outdoor Classroom](#)

Shelter: [Shade Structures for Playgrounds](#)

Combination: [Playground Structures with Shade](#)

Our outdoor musical instruments work great for young children that have fun creating noise. Shade shelters and gazebos are important areas for playgrounds that provide shelter and outdoor learning areas. Specifically check out our new *Gazebo Learner*, where a teacher and students can interact at the same level. Our learning playgrounds include a grow station where children can view the roots of growing plants, art easels for drawing, and above ground sand tables for clean fun.

Budget

**\$20,000-
\$50,000**

If your budget is \$20,000 or more, your playground has practically unlimited potential.

Poured in place surfacing, large custom designed structures, shade structures, and more.

[Poured in place surfacing](#) is quickly becoming the most common safety surface behind wood mulch. We start by prepping the ground with a base of concrete or stone. Next we mix and layer rubber buffing and binder in a mortar mixer. The top layer contains color and is applied last. Unlimited designs are possible, or you can get a reduced rate with a 50% color/black mix. This surface comes with a five year warranty and can last over 20 years without being replaced. Ask for references nationwide!

In recent times, a new wave has entered the playground industry. Incorporating nature in the play area. Landscaping is a common element for most businesses. Why not build your playground like you build a house or a business, with attention to the finished product. Stone borders, garden areas, and specially designed equipment is slowly coming to the marketplace as this trend continues.

We offer playground structures from small to large built from [100% recycled plastic decks and posts](#). These structures match any steel line in price and design, and are environmentally friendly.

Our [custom steel modular playground structures](#) feature posts built from 50% recycled steel products. Several designs are available. Post and plastic color combinations are almost unlimited.

Budget

**\$50,000
& more**

The sales and design staff at State of Play will assist your organization in the entire process, from planning, organization, design, and construction of the playground of your dreams. Need help financing? No problem, our [financing partner](#) specializes in business loans, leases, etc.
