

PLAYGROUNDS, INC.

Poured In Place

The 2-LAYER SYSTEM is warranted for 5 years, but will last much longer, making it an economical choice over time. No refilling or special maintenance required and the colors will stay bright.

Playmulch System

Economical, durable, and attractive, the Playmulch bonded recycled shredded mulch system is a great alternative when you want the long-lasting qualities and safety of bonded rubber surfacing on a smaller budget.

The Playmulch System is recommended for applications where asphalt, concrete or compacted stone are the sub-base.

Three-color mixture looks like turf but acts like bonded rubber!
