SAILBOAT SANDBOX  
902-824

**SPECIFICATIONS:**

Panels: Made from 0.75" high-density polyethylene with UV inhibitor.

Corner Brackets: Nickel coated steel

Metal Parts: Galvanized steel

Hardware: Nickel coated

Weight: 280 lbs.

Required Area: 6'-4" X 8'

**INSTALLATION INSTRUCTIONS:**

***IMPORTANT:*** Read all instructions thoroughly before beginning installation.

1. Install 4 corner brackets on the back panel with 1-5/16" x 1" button head nut, 1-5/16" x 3/4" button head bolt, 1- 3/8" flat washer, and 1- 5/16" flat washer per corner bracket.
2. Now attach the long side panels to the corner brackets installed in step 1 with the same size hardware. Flush corners and tighten all hardware.
3. Next attach the 2 short front side panels together with the 4 holes (2 on each panel) with the same corner bracket hardware combination as used earlier. Flush and tighten.
4. Install the Front Bow seat to the panels assembled together in step 3 by using 4 of the corner brackets and the same hardware combination and tighten.
5. Now install the side bench panels (1 per side) to the 2 holes located along the top side of each of the long side panels with the corner brackets and same hardware and tighten.
6. Now make sure the sandbox is located in the correct location and then slide the front assembly up against the back assembly. These will be held together with the 3<sup>rd</sup> hole located on the side bench and
