

Thermoplastic Coated Site Amenity Products Specifications and Warranty

Specifications:

SportsPlay's new Thermoplastic coated products shall feature 12 gauge perforated steel with a rolled or beveled edge. The Thermoplastic coated expanded steel products shall feature 9 gauge steel. Benches and table featuring 4" x 4" post supports shall be fabricated from 7 gauge square tubing that is 3/16" thick. Offset arms measuring 3" x 3" shall be fabricated from 11 gauge square tubing. All other supports measuring 1-5/8" and 2-3/8" O.D. shall feature 14 gauge steel tubing. All bench and table surfaces shall feature Thermoplastic coating with a choice of the following six colors: Blue, Green, Black, Brown, Red, and Tan. All leg supports shall be steam cleaned with iron phosphate to provide better corrosion and adhesion and have a baked-on electrostatically applied polyester dry powder coating. All products shall be oven baked at 400 degrees Fahrenheit to ensure superior paint adhesion.

Warranty:

Thermoplastic coated products shall carry a 5 year guarantee against defects in workmanship or materials when installed and maintained properly. All other site amenity products including wood and recycled plastic will carry a one year against defects in workmanship or materials when installed and maintained properly. Our warranty will become null and void in the event of vandalism, man made or natural disasters, lack of maintenance, normal weathering or wear and tear due to public abuse.
