- Base plate allows permanent surface mounting

The Mobile DOGIPOT Pet Station/ DOGVALET Mounting Base adds a lot of versatility to your DOGIPOT DOGVALET or Pet Station. On the one hand, you can use it to surface mount these items on most solid surfaces, opening up new potential for your dog tidying needs beyond the grass. If, on the other hand, you need to be able to move your DOGIPOT items around regularly, this base also offers complete portability. Set it down where you need it for the day, week, or month, and then pack it back into storage when you're done. Included in this kit is a 22-inch heavy-duty base plate powder coated in a forest green that is attached directly to the cast iron pedestal post base. This fits all two-inch DOGIPOT square posts. The base plate that is included comes with four holes for cement screws or ground stakes that provide extra security for yourself against the possibility of tipping over.
