The Slides Alive Play System is a fun-filled hike with many sights to see. From the Transfer Station to the 8-foot Spiral Slide is an uphill climb that is peppered with climbers, slides and activities. Before kids climb the mountain, a Ship's Wheel awaits many magical adventures to foreign lands and the Bench Panel can support a game of checkers or two children chatting. Two climbers are conveniently placed to get children to the middle of the action with ease. The Pod Climber's exit is near the Right Turn Slide and the Rectangle Manhole Climber is close to the top. A Window Panel provides kids with a view of the ruckus below. The Spiral Slide sits at the peak of the system and beckons children to try its thrills. The Slides Alive Play System will invigorate curious children and will be played on for hours to come.
