

BarkPark Hoop Jump

MSRP \$1,067.00

SALE \$907.00

Highlights:

- Three different levels of difficulty
- Fun paw prints connect the three rings
- Excellent event for small, medium, and large dogs
- Offset grouping of the rings creates an interesting look

The BarkPark Hoop Jump is a progressive training jumper that can be easily secured into the ground for regular training with your dog. The in-ground or surface mounting safely mounts the hoops in place to withstand the elements and any knocks if your dog happens to bump into it. It is perfect for dogs of all abilities as it features three rings of the same 22-1/2-inch diameter but increasing heights. Because of this, it can be used to train and instill jumping confidence in even the most timid dogs who may have never jumped before. Each of the three hoops are also large enough to accommodate even the biggest jumping canine. To suit all tastes, the BarkPark Hoop Jump comes in two different color palettes: the natural colors of green and tan, or the playful colors of red and blue.

For smaller jumpers, there is always the BarkPark Small Hoop Jump with a 16-inch diameter hoop.
