

BarkPark Weave Posts

MSRP \$1,462.00

SALE \$1,243.00

Highlights:

- Spring attachments for the tubes creating the iconic weave post action

If you are looking for an effective way to improve your dog's speed and agility, then the BarkPark Weave Posts are the products for you. This kit consists of six tall posts, each of which are attached to a surface mount plate, meaning that they can easily be aligned, and each of them has been fitted with a flexible rubber stopped on the attachment point, providing great and smooth springing action even at fast speeds. These two sets of natural beige three posts are a perfect way to start your dog on weaving in and out which, as they get better and more confident, will help to improve their speed and agility. Because they are so flexible and spring back into their original position so easily, your dog will learn to move the way that is best for them, without being afraid of injury.
