**SALE \$14,953.00**

### Highlights:

- Can work for dogs of all sizes
- Includes the best events from our catalog
- Can be set as an individual or multiple courses
- Offers multiple agility and strength building exercises

The 9-Piece Expert BarkPark Kit is the last stage in advancing your dog's training. It consists of 9 pieces of equipment, all of which have been designed to further develop your dog's balancing and agility skills. They have been designed to be used by dogs of all shapes, sizes and breeds. The installation of this equipment will take any regular dog park up to the next level. The BarkPark Doggie Crawl offers a good all level event for beginners. The BarkPark Dog Walk provides an easy up and over course that can lead into the more complex activities of BarkPark King of the Hill and eventually even the BarkPark Teeter Totter. Once they have pushed themselves to the limit, the adorable BarkPark Stepping Paws will lead them through all of the right steps. Once they have a taste of air, they will love the progressively difficult BarkPark Rover Jump Over and eventually even the BarkPark Hoop Jump. As the day winds down, a dog can wind their way through the BarkPark Weave Posts to settle on the BarkPark Paws Grooming Table.

If you want a smaller set, check out our 6-Piece Intermediate BarkPark Kit and our 4-Piece Novice BarkPark Kit.
