The BarkPark Sit & Stay Bench provides both a place to sit and to stay. Dog parks are for dog socialization, but it doesn't mean that their owners need to stand at all times. For dog parks with multiple entry gates, a bench can create an area to get organized on the way in and a chance to pack up and calm down before beginning the journey home. For dog parks with a single gate, the bench still provides a place for owners to calm their animals. The BarkPark Sit & Stay Bench comes in not just traditional in-ground or surface mounts, but a portable form. The extra mobility allows you and your patrons the greatest control of your park.
