Who says that your trash receptacle has to be boring? The Recycled Plastic Ridgeview Receptacle by Frog Furnishings features contrasting wood colored planks the contrasting against black plastic posts. This receptacle is attractive and clean, so people are more likely to use it than one that is gross beat up and has garbage spilling out of it. This trash receptacle is attractive enough for residential use, yet crafted to withstand the abuse from commercial use. It is made with Frog Furnishings' 100% recycled material and heavy duty, zinc coated hardware. The lid removes for easy access to the liner. All four sides of the receptacle have an engraved pattern on them, and the black trim is made with recycled plastic Resinwood slats. The Recycled Plastic Ridgeview Receptacle is available in cedar, gray, or green, and is 32 gallons in size.
