Unit Size: Cork Board: 17" x 23" Outer Edge: 20" x 29-1/4"

Whether you need to post an important event, a warning sign, or a trail map, the Small Message Center is the perfect size to display this information. You can order it with or without a post in standard colors of cedar or green. The post is made from solid 4-inch x 4-inch Resinwood boards and is 6' before the install. Inside, you will appreciate high quality marine-grade cork that will not start to crumble after a couple uses like others do. Even the locking mechanisms are specially coated for durability. The Small Message Center that will stand up against environmental elements as the center itself has been crafted from various sized Resinwood slats, and the clear plastic sheet is shatter resistant. Do not trust valuable information to a low-quality message center, choose one that is weather-resistant and reliable.
