Unit Size: Cork Board: 23" x 30" Outside Edge:
29-1/4" x 36"

Does it seem as though all you can find are small or large message centers everywhere you look? Sometimes, a small one just does not grant you a big enough viewing area, but a large one is far from appropriate for every environment. The Medium Message Center is perfect! Not only are you granted a moderate-sized viewing area, you have the option to order it single or double-sided. This is a nice alternative to a large center as well. It features marine-grade cork, a shatter-resistant clear plastic sheet, specially coated locking mechanisms and Resinwood boards. Order yours with or without posts in cedar or green. If you order posts that will be put on concrete, be sure to add a pair of Surface Post Mounts to your quote. If you are placing a high quantity order, custom colors are available. This Medium Message Center is weather-resistant and made to last.
