

Sophia Playground Structure

Price \$14,793.00

Age Group: 2 to 12 years

Footprint: 14' x 24'

Use Zone: 26' x 36'

What is so unique about the Sophia Playground Structure by SportsPlay is the way that you can hide behind the rock-climbing wall, making it a fun element for a game of Hide-and-go-Seek! Stairs take children to a covered platform where they can journey through paths to get to the slides. The best part about the slides is that they are side-by-side, which is perfect for racing! On the ground, there is the rock climbing wall plus a corkscrew climber to encourage strengthening exercises and improve balance. Order the system either as a 3.5 or 5-inch super-duty upright option. It is brightly colored and offers everything that kids need to have fun and burn off a ton of energy. This is welcome addition to any playground, and since it is made for commercial use, it is built to last.
