- Polyethylene surfaces for easy cleaning and high durability
- 4-foot length makes it the ideal size for little ones
- Frame comes in any standard metal color

Every school, daycare and park should have the 557 4-foot Heavy Duty Preschool Table by Ultra Site. It is the perfect height to allow children safe and easy access to the seats as well as the table. A traditional picnic table offers the potential for injury from falling, plus the table is always far too high to eat, draw, or color on. This table is as attractive as it is practical with its durable powder-coated frame in blue and vibrant green polyethylene planks. To ensure its stability and durability, zinc-coated hardware has been used throughout. This table is sturdy enough to offer peace-of-mind yet lightweight enough to make it portable. At 4-ft long, this is the perfect size table to place nearly anywhere.
