

Portable Preschool Learning Table

MSRP \$1,391.00

SALE \$1,183.00

Highlights:

- Perfect size for preschoolers
- Connected benches and tables make it easy to sit around
- Low support bars make it easy for children to get up and down
- Fits multiple children on each side

Whether you have a daycare facility or preschool, you know that there are never enough seats to accommodate everyone. While you could have two separate tables, then there is the argument over who is going to sit together at each table. The Ultra Site solves these concerns with the 358 Preschool Table. This unique design is more like a traditional table with seats, so up to 12 children can gather. The table is more than spacious for everyone, measuring 46 inches across and 20-inches high. You will appreciate the walk-thru design as well, which eliminates the struggle of getting on or off the seat. It is available in an array of colors and features stainless steel hardware. For added safety, all edges have been thoughtfully rounded to reduce the risk of injury. Defects on material and workmanship are covered under a 5-year limited warranty.
