ASTM F1487-17

CPSC PUB #325

The Charlie Chomper Fun Bounce will make your park a Jurassic playground, adding an element of adventure to any location. Crafted from durable, rotationally molded plastic, this equipment is sculpted into a playful dinosaur complete with arms, legs, teeth, and a tail, making it a great piece to encourage imaginative play. Kids love pretending that they are riding on the back of their favorite dinosaur through prehistoric jungles!

Designed to accommodate up to two children at once, the Charlie Chomper Fun Bounce by PlaygroundEquipment.com comes in an eye-catching purple and is designed for kids ages 2 to 5. It has four foot-rests to provide stability for young children as they mount and ride it, and it also has safety handles they can grip for extra security. Since it's low to the ground, it's also accessible and inviting for children of a variety of physical abilities.

Playing on Charlie Chomper can be a journey into kids' imaginations, but as the play, they'll also be developing their gross motor skills. Climbing up and seating themselves on the dinosaur is an exercise in strength, balance, and coordination, and bouncing along on this fun spring rider engages kids' core and leg muscles.

Kids love the Charlie Chomper Fun Bounce, and so do the adults who buy this product. That's because it's made from durable materials that can stand up to the rigors of outdoor play while maintaining its vibrant appearance over time. It also ships fast, within one to two weeks. [\[Read More\]](#)
