**COMPLIES With:**

ASTM F1487-17

CPSC PUB #325

The Charlie Chomper Fun Bounce will make your park a Jurassic playground, adding an element of adventure to any location. This rotationally molded plastic is formed into a dinosaur with arms, legs, teeth and the tail. This makes it a great addition for imaginative play. Kids can pretend they are riding on the back of their favorite dino through prehistoric jungles. The dinosaur-shaped bounce allows up to two children to play on it at the same time, doubling the fun. It has four foot-rests to provide stability for young children who mount it. The footrests coupled with the safety handles makes this a secure piece of equipment that parents can feel confident in. The Charlie Chomper Fun Bounce by Playground Equipment Dot-com is only available in the color purple and can be shipped in one to two weeks.
