---

The Discovery Range Center is a five-deck structure that comes with a range of features that allow for incredibly imaginative play amongst young children. The whole system is based around vines and nature, and it comes with a Store Panel, a curved slide, a vine climber, a touch math panel, a clock panel, telescope, panel of shapes and colors, bongo drums and a wheel. The roof is also totally integrated into the jungle/nature themed structure, and the whole system is compliant with CPSC and ASTM. This great playground apparatus takes learning outdoors and makes it easier to ensure safe and imaginative play. It even has multi-sensory experiences for all the children to benefit from. Invest in this great learning and play equipment and your playground will offer the best in learning experiences.
