**Age Group:** 2 to 5 years

**Footprint:** 15' 3" long x 16' 2" wide x 11' high

**Use Zone:** 27' 3" x 28' 2"

The Discovery Mountain Center is the perfect addition to your playground, offering a 4-deck structure that comes with a range of math and literary learning accessories. It is a jungle/nature-themed piece of apparatus, which is capable of improving the gross motor and fine motor abilities of children, by simply allowing them to play and explore using the equipment. Not only this, but the Discovery Mountain Center also features a TouchMath panel which helps children to learn whilst playing outdoors. Children will have numerous multi-sensory experiences with this equipment and have the chance to engage in dramatic and imaginative play at the same time. The whole piece of equipment also meets IPEMA certification standards, as well as ASTM and is ADA accessible. You will have no issue in setting up the equipment in your playground, either.
