Footprint: 3' 6" x 11' 6"

Use Zone: 15' 6" x 23' 6"

The 4 foot straight slider is a simple addition to a playground, but of course, one of the most important! Every playground needs a slide, and this 4 foot slide is perfect for any playground focused around younger children. The slide is completely weather proof and sturdy, and is easy to set into the ground, using concrete for anchoring. You will be able to put the whole slide together with real ease, too. On the slide, there are also barrier rails that keep the child safe when they are traveling down the slide. The slide is also help up by 3.5 inch powder coated steel, too, which means that your structure is completely rust resistant and can ensure that it withstands the weather for many years to come. There is also a set of perforated steel stairs, which are also coated for durability and longevity. The equipment comes as shown in blue plastics, red posts, and yellow metals.
