COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Lil' Alfalfa Playground System will make little rascals jump with joy. This system is constructed with a preschoolers' palette in mind. The elevated decking never rises above three feet; keeping children engaged without endangering them. Also, this unit is fashioned from powder-coat painted steel and rotationally molded plastic that offers a high level of safety and security for watching parents. Custom colors are always an option with the added increase of shipping times up to 6 - 7 weeks. The humbleness of the system allows ground-dwellers to satisfy their musical hunger on the Single Drum. Once they have, they can clamber up the Carrot Climber. For the braver ones among them, the captivating spring-like appearance of the Spiral Climber will beckon them. A short ride down the 3-feet Wave Slide will bring them back to the beginning. Although, this unit looks limited with its smaller size, it is everything that a younger kid wants.
