ASTM F1487-17

CPSC PUB #325

Provide children with one of the safest swing rides of their lives with the Elite Series 3.5 inch Arch Post Swing 8 Foot. The Arch-style posts are the sturdiest of commercial swing set designs featuring to complete powder coat painted steel post of a continuous 3.5-inch diameter. The top rail is set at 8-feet allowing for belts, buckets or adaptive swing seats to be used for your diverse community to all be able to swing. Choose the number of bays to match your individual playground needs. A bay holds two belt or bucket seats, which means that a two bay set already accommodates up to four children at once. The Elite Series swing set comes in a variety of powder coat paint colors that ship in 6 to 7 weeks with Cobalt Blue and Rainforest Green available for quick ship of 1 to 2 week shipping.
