COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Game Changer Fitness Course provides a distinctive way to exercise. This health-enhancing structure is riddled with various activities that will undoubtedly keep children engrossed for long periods of time. Climbing, hanging and balancing are the name of this structure's game; giving kids multiple ways of experiencing this unit. Two Floating Tunnel Climbers make a great entrance into this obstacle course from either side. One side leads with an un-intimidating pair of pebble steps while the other puts a spring in your step on the Spring Step. Kids will have to climb over them to proceed onto the next challenge. The Overhead 3-Wheel Swing Ladder keeps kids rotating as they attempt to hang on tight. The Zig Zag Challenge, Inclined Uneven Bars and Leaf Climber make up one side of the structure and add a multitude of different ways to climb. The Lily Pad Challenge Bridge takes the balancing challenge to another level as it leads to the ultimate test with the Saddle slide. The combined structure is a robust course that physically improves children with a boost that anyone could benefit from.
