There's more than one way to play on the Discovery Trail Playground. The entire structure creates a winding staircase up to the top "tower" capped with the Pyramid Roof and a final Spiral Slide that sends children whirling back down. The fun begins at the Transfer Station where all children have an opportunity to head up the system. More adventurous sprouts might try the Snake Climber to get to the center of the action. Once reaching the 44-inch platform, children will have a 3-foot Left Turn Slide a step lower, a Ship's Wheel to spin indiscriminately and even a Tic Tac Toe Panel for a game alone or with a friend. Just a bit higher, a Bubble Panel awaits for the next undersea exploration or maybe a shot into outer space. Upon reaching the summit, children will gleefully spin down the Spiral Slide. At the ground level, a Store Panel, a Single Drum and another Ship's Wheel waiting to be played with. The system comes in any combination of custom colors.
