Walnut Creek welcomes children to play. The nature-themed structure incorporates some different elements of nature with the Onion and Banana Roofs. An Elephant Panel near the highest part gives children the illusion that they are riding an elephant. The jungle theme is continued with a delightful Single Bongo at ground level. The structure offers three slides to satisfy the timidest to the bravest of children. The Double Slide allows the uncertain child the comfort of a friend as they slide down while the 5-foot Straight Slide adds extra height to the ride. The bravest of children will be excited by the Spiral Slide that leaves from a 76-inch deck for a thrilling ride all of the way to the ground. Even the climbers offer different levels of difficulties with the Curved Overhead Straight Rung Ladder for thrill-seekers and a Spiral Climber for those just getting their feet wet.
