COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

All aboard the Royal Zephyr Playground. This train themed play system is ready to pick up passengers and handout fun. This unit's design inspires creative play and takes children on an adventure. The front of the train is home to the Wave Slide and a Tube Bridge with Window making it low to the ground and ideal for the younger children. The further back you go, the taller the decks are. The back of the train is equipped with two slides at different heights. The Wave Slide is a bumpy descent and the Spiral Slide is over 5-feet tall. Once the sliding grows old, the ground-based activities become more appealing. The Porthole Panel, Single Drum, Ship's Wheel and Rain Wheel keeps children engaged without them leaving the ground; making this the safest way to play. Kids can hop aboard this train and set off on an adventure.
