**Fall Height:** 84"

**Use Zone:** 44' 11" x 51' 6"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Children will be the rulers of their playtime on the Venetian Shores Playground. The ironically sprawling structure provides children with five different sliding opportunities, five varied climbing structures, and multiple smaller ground level items. The real draw to the Venetian Shores is the open space. Children have the opportunity to play with friends while engaging with the structure rather than only focusing on the structure. There are plenty of challenges from the 270 Degree Overhead Rung Ladder to the Spiral Climber as well as focal points like the pair of Tube Slides at one end. Underneath the structure, the Car, Gear, and Store Panels each create realistic play situations. Bongos are sprinkled along the underside with a Rain Wheel and a Ship's Wheel thrown in. With such a varied set of events, the structure is able to provide a large number of children experiences that each one will enjoy.
