COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Leave the fun to the Un Be Leaf Able Playground. Designed to work for either preschoolers or elementary school aged children, it provides a large variety of different play opportunities. Starting among the top is the Spiral Slide. But if it's curly shape is too much, there is a much more gentle Double Turn Slide for children to race each other down. Before children get to the top, they'll need to scale either the Paw Print Climber or the easy to climb stairs. Children will be thrown into a forest of fun with the Stump Climber, Tree Topper, Stump Window, log-shaped Tube Bridge with Window, and Stump Store Panel. The forest theme is reinforced further with the Gable and Club House Roofs that could have been pulled from a tree house in their backyard. All of the metal and plastic components are available in a wide range of colors allowing for the freedom to create a whimsical or accurate forest play structure.
