**Fall Height:** 84"

**Use Zone:** 33' 3" x 33' 5"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Take the steps up the tower to Conway Castle Playground. Conway Castle is designed to be a spiral turret-like those found on most fairy tale castles. Some adventurers will begin their expedition by heading up the Vertical Ladder only to go across on the Straight Swinging Ring Ladder. Some children might hop down to give the Ship's Wheel a spin before resuming their upward journey. On the way up to fight the dragon, children will be delighted by the Tic Tac Toe and Bubble Panel. They may even stop and play with a friend before continuing. Once at the top children can either take the direct way down on the 4-foot Straight Slide or race a friend on the 5-foot Double Slide. One of the best aspects of this structure is the Transfer Station that makes the structure ADA Compliant for fully inclusive play. All children will feel that they are the knights, kings, queens, princes, or princesses of the castle on the Conway Castle Playground.
