Fall Height: 48"

Use Zone: 26' 10" x 29' 7"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Blast off for fun on the Cosmo Topper Playground. Preschool to elementary school aged children will be entertained for hours on this pagoda shaped structure. The structure can be climbed via four distinctly different entry points. The Transfer Station provides a spot for all children to reach the upper levels, which in addition to the ground level activities, makes this structure ADA compliant. The Inverted Arch Ladder offers a slightly more challenging option for those with the hand-eye coordination necessary. For those that would like to add imagination to their adventure, the Rock Hole Climber immediately puts them in the mindset that they are scaling a mountain or volcano in search of a pterodactyl to ride. Or they can climb Jack's beanstalk on the Pod climber. Once at the top, a spin or two on the Gear Panel will lead them to climb back down or take the secret exit down the Right Turn Slide. Once they reach the bottom, they can steer themselves away with the Ship's Wheel or perhaps take a break on the Bench Panel. Numerous journeys are sure to await them. Take the time to browse our custom color selection as each structure is available in any color combination of your choice.
