### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Once A Pun A Time Playground isn't joking around. Overflowing with entertaining attachments, children will forget what boredom is. Kids will come up against their first obstacle when deciding where to start playing. When swinging is a priority the Vertical Ladder leading up to the Overhead 3-Wheel Swing Ladder is a magnificent place to start. The Overhead 3-Wheel Swing Ladder has three rotating, powder-coat painted steel rings that add a substantial amount of challenge to just hanging on. Another overhead ladder supplements this unit's varied nature; giving children the power of choice. Both of these connect to the main island of the structure. The Once A Pun A Time Playground comes with three slides that are all at different heights. The first Double Slide is only 3-feet off of the ground which is a younger kid's dream. The other two are large enough to accommodate the older kids' hunger for thrill.
