### ADA Compliant

Everyone will feel included on the Bridging Pathways Playground. Fully wheelchair accessible, the majority of the structure is ramps. All of the ramps are accompanied by handrails providing extra handholds where necessary. There will be plenty to do with the immense size of the structure. Slides are available in almost every available variety to everyone interested in sliding. There are climbing systems scattered throughout the structure allowing everyone to be involved in the right type of play for them. Designed to hold up to 350 elementary school aged children, this system would be the focus of your outdoor area. The system is so large that just about every single piece of the Playground Equipment Dot-com Maximum Series is featured. Remember that all rotationally molded plastic, powder coat painted galvanized steel, PE panels and even climbing handholds can be ordered in custom colors creating a truly unique system.
