COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Ahoy landlubbers! The Anchors Aweigh Play System will make a captain out of any child ready to brave the high seas. This unique unit looks like a real boat with its Ship Bow, Ship's Wheel, Ship Hole Panels, and assortment of sails. Captivating the imagination is what this play structure does best. Not only does it stand out visually, but the real fun is waiting inside this plastic pirate ship. The Inverted Arch Ladder, Arch Climber, Spiral Climber, and Pod Climber will be a kids entrance into the hull. Once in, four slides are just waiting to be used. Experience the Left Turn, Straight, Right Turn, Double, or every single one of the slides. All slides are made of rotationally molded plastic that can handle stress and resists that horrible sweaty sticking that can be found on more traditional steel slides; which allows for a smooth transition. The Anchors Aweigh Play System's charm is unmatched.
