Column Like I See 'Em Playground is for those who are bold, daring and aren't afraid to let people know it! Any kid who plays on this structure is sure to call this playground entertaining and exciting. Two slides decorate this structure, the Spiral Slide and Straight Slide which kids will slip down to the bottom as the wind blows against their faces. These slides are made of rotationally-molded plastic that is tough and strong enough to handle the daredevils who will brave them. Kids can also try their hand at the Inverted Arch Ladder that leads up to the structure from the ground. This will also test their balance and climbing skills. It also has fun activities that they can partake in such as the Gear Panel, Bubble Panel, Car Panel and Bench Panel. They can also challenge each other with the Tic Tac Toe Panel.
