### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Breckenridge Play Structure by Playground Equipment Dot-com features plenty of elements to keep kids busy and active! For starters, kids can enter the structure by swinging on the Overhead Straight Rung Horizontal Ladder or they can spend time playing on the Spider Web Climber. Going a bit further they will find shade under the Square Roof. They can then slide down the Double Slide and enter back up through the Stump Climber where they will meet the Snake Climber. Another element is the Spiral Climber that is in the path of a Bubble Panel up top and three slides including a Right Turn Slide, Straight Slide and Left turn Slide. Below these slides is a Store Panel. The Inclined Bone Bridge is a staple of this structure as it is a fun way to reach the other side of the structure which includes two slides a Maze Panel, a Pod Climber and Rain Wheel.
