29-1/4" x 36"

Post boldly in the outdoors with the Medium Hinged Message Center. Whether it is a map, a piece of artwork from a top student, or a set of important notices, the Message Center will help it to stand out. Not just stand out, but for as long as possible. Every bit of the Message Center is designed for the harsh reality of being continuously outdoors. The front panel is fitted with a shatter-resistant clear plastic panel. The body of the center is made from Frog Furnishings' signature Resinwood, which is made from mostly recycled plastic material. The Resinwood is both durable and scratch-resistant as it is solid planks. To finish it all off the Medium Hinged Message Center, it is equipped with Marine grade cork and stainless steel hardware. It will arrive as an in-ground mount, but it can be converted to a surface mount with the addition of the Frog Furnishings Surface Post Mounts.

For a range of sizes, be sure to take a look at our Small and Large Hinged Message Centers.
