### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Noah's Ark Playground is ready to brave the floods of children coming your way. Above Noah's Ark Playground flow two Short Taper Sails that will invite children to test out the waters. The Ship's Bow of Noah's Ark Playground is made to mimic the appearance of wood while keeping the durability and resolution of rotationally molded plastic. The central deck of the ark is the perfect hangout for children with several feet of free space any way that they look, allowing many bodies to congregate within Noah's Ark Playground. A Right Turn Slide and Left Turn Slide extend outwards in opposite directions. On one side, kids land near the Ship's Bow and other sets children down closer to the Snake Climber and Elephant Crawl Through Panel. Activities dwell around every corner of Noah's Ark Playground. Children will be entertained as they sail the seas of their imaginations whether to a Biblical story or a world of their own creation.
