- Cover keeps children in the shade as they learn
- Floor makes sure children stay relatively clean as they play

Age Group: 6 months to 5 years

Footprint: 8' x 8'

Use Zone: No use zone required.

The Toddler Clubhouse by Little Tikes is a great place for children ages 6 months to 5 years to hang out and play under the shade. The shade roof entirely covers the plastic floor of the clubhouse, keeping children dry and out of the sun. The floor keeps them from getting wet or dirty from the grass. The panels that make up the side walls of the clubhouse consist of games that enable children to learn while playing. The Toddler Clubhouse is brightly colored which is sure to keep children engaged! The unit is available with surface mounting only. For in-ground solutions please contact AAA State of Play for alternative designs to meet similar needs.
