### ADA Compliant

The Jumpin' Jack Play System is a massive structure designed to accommodate the whims of legions of children. Fun is everywhere you look on this functional unit, from the ground level to all its elevated decks. Leave boredom at the door, there is no room for it on this huge playground. On the ground, a Ship's Wheel, Rain Wheel, Bongos and Single Drum are scattered around the structure. These inclusive activities do not require any climbing whatsoever; giving any kid a chance to participate. For those in need of some clambering, the Jumpin' Jack Play System will deliver in spades. The Rock Hole Climber, Pebble Climber With Rail and Pod Climber keep traffic flowing with the extra entrances. Also, they provide a great balancing challenge that'll test eager children. This huge structure even has four slides designed to occupy players of ranging ages and sizes. So kids, can you conquer all of this unit's obstacles?
