### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Briar's Meadow Play System by Playground Equipment Dot-com features many elements that will delight school-age children. Kids will climb up on the structure by using the Transfer Station, the Inverted Arch Climber, or the Snake Climber to one of the three main decks of the structure. All of which will help to exercise big muscles such as arm, legs and core. A Crawl Tube links two of the decks together while stairs connect to the third. A Right Turn Slide, Straight Slide, and Double Slide are featured as well that will allow children to flow with the wind. You will also find fun add-on panels and post mounted elements such as; a Rain Wheel, Ship's Wheel, a Gear Panel, Bubble Panel, Bench Panel, Elephant Crawl Thru Panel, Store Panel, and Tic Tac Toe Panel. These panels will exercise their mental capabilities as they challenge each other and see the world differently. Briar's Meadow Play System is ADA accessible. It can also be customized with some of the various color options.
