Children will feel like they are on cloud nine as they ascend the Cloud Peak Play System. This is a tri-level play structure that provides a different aspect of fun on every level. On the first level are the Sea Creature Climber and the Right Turn Slide which will provide just the right amount of fun for younger children. Once they are ready to go to the next level they can crawl up the Inclined Tube Bridge where they will find the medium-sized Wave Slide and Twisted Arch Ladder. The third and most exciting level has a long Straight Slide and Vertical Ladder. Below the structure is a Bench Panel for children to rest on, Ship's Wheel for imaginative play and Rain Wheel that makes the sounds of the rain. The aforementioned also allow for ADA accessibility for children with limited mobility.
