Age Group: 5 to 12 years

Footprint: 8' x 8' x 7' 6"

Use Zone: 20' x 20'

The Chain Ring Ladder is a challenging fitness activity that allows the user to develop upper body strength, primarily upper arms and shoulders. The chain ladder has 12 coated rings that are staggered requiring the user to use hand-eye coordination as well as determination to propel them from one side to the other. The unit is standard in galvanized steel, but can be powder coated at an additional charge.
