CPSC PUB #325

ADA Compliant

Children will discover a new place to play on the Dolphin Cove Play System. Designed for toddlers and preschoolers, it would be the perfect addition to almost any daycare, preschool or childcare program. The system stays at a safe 3-foot height all of the way across giving caregivers and parents peace of mind. Children can hop up the Carrot Climber at one end or slither up the Snake Climber on the other to get on the main platform. There is always the option of the Transfer Station that allows for children of all different types of mobility access to the central system. Once on the structure, the Curved Tube Bridge gives children access to the Wave Slide and Right Turn Slide on either side. There is a brightly colored Gear Panel sitting at the top of the Carrot Climber waiting to be spun back and forth. For more musically inclined kids, the Rain Wheel and Single Drum offer artistic outlets for them. The entire system is made up of your choice of our custom colors of powder coat painted steel and rotationally molded plastic.
