COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Power Play Fitness System is a maze of challenges in need of conquering. Little warriors' mettle will be tested with daunting overhead ladders, tough climbing walls and the dreaded Tower of Rings. But, the reward of surmounting this unit's obstacles is beyond worth it. The boons gained are an unwavering sense of accomplishment and a great full-body workout to boot. Pebble Climbers weave through the Power Play Fitness and connect all activities together. Kids can take on the trial of not touching the ground while storming this obstacle course; putting children's gross motor skills to the test. The two climbing walls, on opposite sides of the system, are a tempting vertical challenge that will push children to their clambering limits. Once the Power Play Fitness System has been overthrown, kids can take a well deserved break on the Saddle Slide or Net Bridge. This unit will teach its players to never give up and to push onwards.
