Age Group: 5 to 12 years

Footprint: 2' x 16'

Use Zone: 14' x 27'

The Horizontal Ladder Station is a standard climber and physical fitness trainer that's a perfect addition to park, school, or backyard playgrounds. Part of our Signature Fitness Collection, this equipment can help kids to increase their core strength as well as their arm strength and endurance. Using the Horizontal Ladder can improve kids' motor skills as well as their proprioception, agility, flexibility, and vestibular function. It can also encourage kids to problem-solve as they make their way across and provide opportunities for social skill development as they take turns or work together to get across. The Horizontal Ladder comes painted or unpainted and is made of sturdy galvanized steel. It has 2 3/8-inch rails and 1-inch rungs, and it's 16 feet long by 2 feet wide with an 80-inch installed height. Order yours for just \$1,084 today!
