Keep fire safely contained with the Fire Ring by UltraSite. This model has a 300 square inch cooking surface that is permanently attached with a cool-coil handle. The grate flips back for easy fire building and clean up. Staple anchors are included for a permanent in-ground mount. The Fire Ring is rust resistant, durable, and able to withstand high temperatures. Powder coated black, this ring comes in models that are 7", 9", and 18" high. The 18-inch high model is ADA accessible, allowing people in wheelchairs to access the cooking area.
