- Dome lids available for purchase separately
- Liners are only available in gray

The Frog Furnishings Trash Liner removes all the risks you associate with poorly stored trash. Without a liner, trash bags can rip, wild animals and pests can break into the trash and scatter it everywhere, and the stored trash can become unwieldy to remove. This trash liner takes care of all those difficulties. Perfectly fitting into any 32 or 55 gallon Frog Furnishings trash receptacle, these trash liners are built to be tough and highly durable, so that your trash won't get out and pests won't get in. At the same time, if there ever is a spill, the trash liner is easy to wipe down, reducing the time and effort required for cleaning. Available only in an attractive, understated gray, simply placing the Frog Furnishings Trash Liner inside your Frog Furnishings recycled plastic trash receptacle makes the whole unit far more effective. For even more trash security, consider purchasing the companion Frog Furnishings Hinged Side Load Dome Lid.
