Discovering music at an early age is important for children. It can help open their minds to learning in new ways! Cause and effect can also be learned as children hear the sounds they make. The Freestanding Rockin' Drum Panel not only promotes musical learning, but upper body development as children move their arms to make music with their hands. As music is made, sensory development occurs for children of all abilities. Pair the Freestanding Rockin' Drum Panel with any other musical elements to create an environment that younger children will love.
