Children ages 2 to 5 years old will love playing on the Preschool Age Horizontal Ladder. At 52" high, this ladder is the right size for the growing and developing age group. By using this ladder, children are building their upper body muscles as well as working on hand-eye coordination. An add-on Tire Boost Package places a tire at each end of the ladder, providing height assistance for children who may be too short to reach the bars on their own. The tires also help to prevent surfacing displacement when loose-fill surfacing is used. The Preschool Age Horizontal Ladder is a great addition to any playground.
